Former owner

I, the undersigned, hereby transfer the ownership of the aforementioned domains to the individual (or organization) indicated above and that the contacts indicated above are those the new owner has chosen to handle his domain.

I enclose **proof of ownership** to this letter that matches the owner name, exactly as it appears in WHOIS:

- A copy of my personal signed proof of identity (identity card, driver's license, passport, or other legal proof of identity).
- If a legal entity is listed in as the registrant name or organization, proof that the organization that the domain is registered to exists, and that I am authorized to act on the organization's behalf. This document must be a certified legal document that contains both the name of the organization and my name as a signing officer (for example, CEO, President, or Executive Director).

To request a change to the owner of a domain, perform the following procedure:

1. Scan this form and the documents listed above, and save the scans in a common format, such as a .pdf file or a .png file.
2. Browse to the following URL and open a customer support case with AWS: <http://amzn.to/2ojbi6M>
3. Accept the default values for **Regarding**, **Service**, and **Category** fields.
4. In the **Subject** field, type "Change of domain ownership." In the **Description** field, type the names of the domains.
5. In the **Message** field, request a secure link from AWS support to upload the documents you scanned in step 1. Do not attach documents directly to the support case.
6. For **Support Language** and **Contact Method**, choose the applicable values.
7. Choose **Submit**.
